

MALTA INSTITUTE OF TAXATION

Maltese on European Register of Tax Advisers

More and more, firms are preparing international projects or developing multi-national initiatives that require tax expertise and advice, not only from their home countries, but also from other European countries.

Today, the internet with its search capability, its simplicity and the new information it can provide, is the perfect tool to respond to these requirements and to make initiatives become a reality.

Using the most advanced web-based technology, the Confederation Fiscale Europeenne has created the EUROPEAN REGISTER OF TAX ADVISERS which meets the requirements of every person, professional or not, who needs the services of a qualified Tax Adviser.

Entry to the Register is strictly limited to members of organisations affiliated to the Confederation Fiscale Europeenne. The affiliated organisation in Malta is the Malta Institute of Taxation. All members of the M.I.T. automatically qualify for registration. As an Associate or Fellow of one of the C.F.E. Member Organisations, meeting also the requirements of the C.F.E. Code of Conduct, members of the M.I.T. take their place amongst the most qualified Tax Advisers in Europe. One advantage of the Register is that it contains data on individuals who have parallel qualifications and skills.

As the Register is an on-line search engine, potential clients from all over the world can access it to search for a Tax Adviser with the right skills. They can search by name, region, language skills or specialisations. If an individual, for example, is an expert in transfer pricing in one country, but has another language as his mother tongue, the Register is an ideal way of promoting these skills.

Registration can only be done through the Malta Institute of Taxation who will provide a registration code with which one can access the Register and fill in his personal data, including language skills and specialisations. A preview version will be available on completion of the process

The fees chargeable are as follows:

First Year - Euro 100 - Lm45

Second and subsequent years - Euro 50 - Lm25

Anyone requiring further Information is kindly requested to contact the Institute on e-mail <gorg@gfcomalta.com> .
